5) Notice of Informal Patent Application

6) Other: _____.

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-33 are rejected under 35 U.S.C. 102(b or e) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Evans et al, Karow, Johnstone et al, Tannenbaum, Kelly or Kotyuk, all applied in the last office action.
3. Applicant's arguments filed 5/27/08 have been fully considered but they are not persuasive. Applicant argues that Buss is not available as a reference based on the relevant dates of the Buss reference and the subject application. The rejection over Buss has been withdrawn.

With regard to the rejections over the remaining references, applicant appears to argue only generally that the rejections do not meet the requirements of sections 102 and 103 of the Statute. However, the applicant does not appear to specify why the rejection is in error. The applicants arguments are directed to some aspects of the law of anticipation and obviousness. The examiner is familiar with these issues. However, mere allegations that outstanding rejections do not meet the requirements of the Statute are of course not convincing.

As an example only, reference may be had to claim 1, the very first claim. It is not clear to the examiner whether applicant believes the references not to show a blister and package apparatus comprising a blister card for sliding into an outer

package, the blister card comprising a formable base, one or more blisters or the sheet material etc., all of which are believed by the examiner to be clearly shown in the applied references. It is not clear whether applicants traverse is with regard to the interference mechanism which is also clearly shown in each reference. Thus, it is not clear to the examiner what the applicant believes is missing from the applied references. Accordingly, the rejections over the references, except for the rejection over Buss, have not been withdrawn.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
